### **Psychodramatic Couple Therapy Training**

You will learn a robust approach to couple therapy using psychodramatic methods. Learn to help couples connect and develop the relationship they want to have. In the training we will get to know each other and connect in new ways. We will collaborate using the same methods we bring to the couples we work with.

*These workshops are part of a two year training programme for health professionals working with couples.* Training includes attending workshops, reading, writing, peer practice and supervision. Participants will attend a minimum of 12 days (90 hours) of workshops over two years. See the Course Outline: [psychodrama.org.nz/PCT-Training.pdf](http://psychodrama.org.nz/PCT-Training.pdf)
